

# Bigger Better Brains Educator Course

Australia's most popular course on music learning and brain development

The BBB Educator Course is designed for music educators, therapists, primary and early childhood educators to gain expertise and confidence in how music learning impacts on brain development. Participants will get two days of direct instruction from world renowned neuromusical educator, Dr Anita Collins.

## Invest in your music teachers and music program and they will

- Support student reading and numeracy skills with creative, new and practical ideas
- Increase student wellbeing with their new neuromusical knowledge
- Make positive school-wide change with leading and informed research
- Enhance their communication skills around the benefits of music learning for parents, school leaders and board members
- Strengthen parent support and engagement by growing the music program
- Boost academic results in Maths, English and Science

## Features of the BBB Educator course

- 10 hours of TQI accredited professional learning
- Two days' learning directly from Dr Anita Collins
- Connect with like-minded music educators
- Access to a private Facebook community
